Bye-Bye Scheduling Headaches

No more frantic emails, texts or carrier pigeons. Whether you need to fill a maternity leave, cover a staff departure or want a long-term staffing solution, our doctors are just a few clicks away. Just log in, post your shifts, and move on with your day. Yeah, it's that simple.

Easy Financials

No more 1099s or payroll taxes. Simple billing. One invoice. Our partner hospitals have reported significant revenue gains when staffing with IndeVets – up to 20% growth in some cases.

Only the Best and Brightest

From pedigree to personality, we hire well-rounded docs. All IndeVets undergo a rigorous review by our medical team, led by our Chief Veterinary Officer. And they're rated highly too — an average of 4.93 out of 5.

Staffing Simplified

When you hire an IndeVet, you'll get a detailed profile of that doctor, making it easy to get to know them before they walk in the door. Our doctors also receive an in-depth profile on your hospital's procedures, workflows, and staff.
