EQUIPMENT FOR SALE

Esaote Biosound MyLab 50 X Vision – Ultrasound

22 GEN 2007 - MOD. 7350 - ESAOTE S.p.A. Transducer Probe

ASKING PRICE: \$4,500 This ultrasound system is for in-clinic use. It comes with a megahertz transducer, screen cover and all power cords. The screen, keyboard, controls, probe, computer and all cords are contained on a cart that is easily moved around your clinic by wheels that can lock into place.

The Biosound MyLab 50 ultrasound system is an extremely popular and economical unit, while capable of producing incredible ultrasound images. It is beloved for a combination of advanced imaging technology and the ability to project various ultrasound application images and compatibility with many transducers. It is comparable to many of the top GE systems, Phillips Systems and Siemens Acuson Systems.

For inquiries, please contact Dr. Joseph Yocum at 859-223-2221 or GTAHVet@gmail.com (S24)
